Cobalt Industrial Projects Ltd. is recruiting experienced Certified Journeyperson Millwrights with heavy industry experience to join our Fort McMurray projects team. This is your opportunity to join a team that believes in quality and integrity.

In this role, your duties may include:

- Performing equipment start-up procedures;
- Conducting alignment tasks;
- Executing motor line-ups;
- Addressing pipe strain issues;
- Ensuring preservation of equipment and machinery;
- Conducting walk-down and punch list activities;
- Experience using Optalign is an asset.

For this opportunity, Cobalt offers:

- Vacation and Statutory Holiday pay allocated to each paycheck;
- A rotation schedule of 14 days on, 7 days off;
- Earn up to 44 hours of overtime per 14-day rotation;
- Paid bi-weekly;
- Air charter from either Edmonton or Calgary hub city and a travel allowance to the hub city airport.

Candidates must pass the 5-panel drug and alcohol test standard for the industry.

If you are seeking an opportunity to that provides you with the ability to work both independently and collaboratively within a team environment, where your contributions are valued, we'd like to talk with you.

To apply for this position, please submit your resume and any relevant certifications to [resumes@cobalt-group.ca](mailto:resumes@cobalt-group.ca) with the subject line "Journey person Millwright Application ". We're looking forward to reviewing your applications and welcoming new members to our team.
